

A war promoted by lies. A war “against terrorism” which has turned Iraq into a breeding ground for terrorists. Guantanamo. Abu Ghraib.  
— This is not *our* mission. These are not *our* values. —

★ **STOP THE WAR** ★

My vote against this misbegotten war is the best vote I have cast in the United States Senate since I was elected in 1962.

Sen. Edward M. Kennedy

The best way to support the troops is to oppose a course that squanders their lives, dishonors their sacrifice, and deserves our people and our principles.

I think it's time we worried about young Americans and innocent Iraqis who are losing their lives...I was wrong to vote for that Iraqi war resolution.

Sen. John Kerry

**THE POLITICS OF CYNICISM AND THE POLITICS OF HOPE**

The administration wants us to believe that even though popular opinion has turned massively against the war, there is no way we can change their policy.

But leaders who have recently found the courage to speak out against the war have been able to do so because of those of us who have stood up and given public voice to this opposition. Together, we are bringing change. It's time for the politics of hope. Join us!
